

## Our Vision

### Better Healthcare Together

Emerald Medical Group (EMG) isn't your typical healthcare provider. Located in the Central Highlands Region, we're a shining example of a social enterprise. Unlike traditional medical practices owned by individual doctors or corporations, EMG operates with a social mission at its core. Our organisation is managed by a volunteer skills-based Board and our profits aren't distributed to shareholders; instead, it's reinvested back into the community and improving patient care.

The social enterprise model offers a multitude of advantages, some includes:

- **Improved Patient Care**
- **Community Investment**
- **Prioritizing Community Needs**
- **Increase health care provision to everyone**
